

Ivan Pfalser (#765) of Caney Kansas, submitted the photo at left, showing a postcard issued in 1943 by the Breda (Netherlands) Stamp Club for their stamp show. The Perfin "P.Z. v. /50" (shown in the inset) is perforated through both stamp and card. It stands for "POSTZEGEL VERENNIGING," which ties in with the commemorative cancellation. The theme of the show was to commemorate the unity of the Netherlands against the rule of Spain.

Do you have a Perfin cover you think would be of interest for other members to see in the Bulletin? If so, please submit it to the editor. It should be a cover with some unusual feature, not just a run-of-the-mill one.
